Claudio Monteverdi

Toccata (5 Trumpets)

from

L'Orfeo (1607)

This edition was prepared from a photographic reproduction of the original published edition. No corrections are necessary. An argument can be made, based on the comprehensive list of instruments specified by Monteverdi, that tympani are not included.

The Maryland Early Brass Consort prepares its own performance material from original sources when good modern editions are not available. Maryland Early Brass Editions was formed with the philosophy is that these works should be made accessible to the public as quickly as possible. Editing is minimal with only obvious errors corrected and simple but workable continuo realizations are provided.
